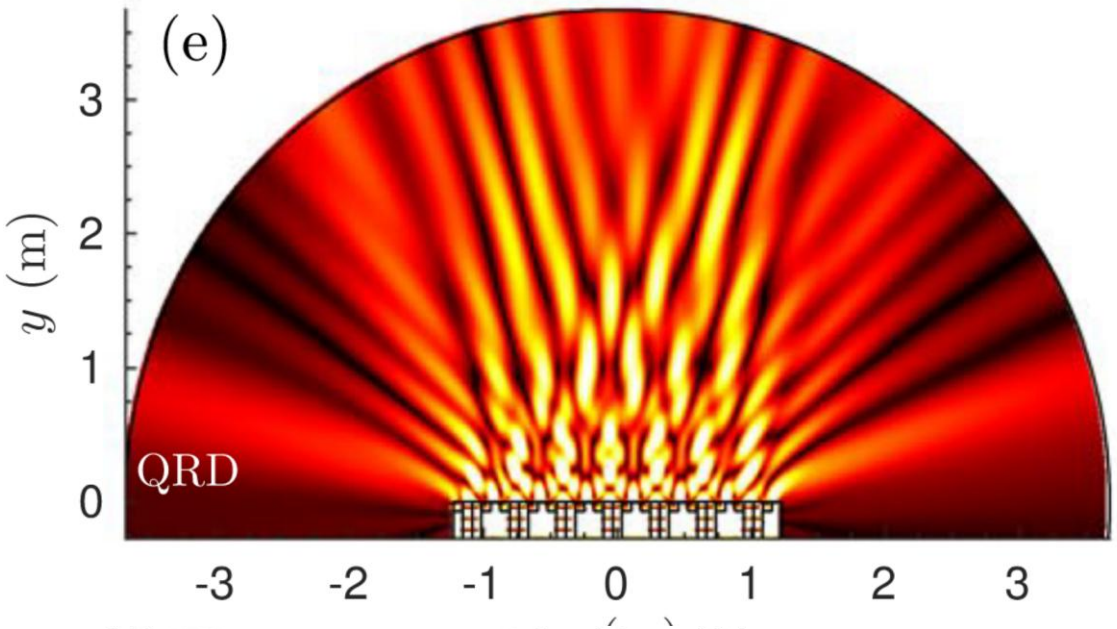
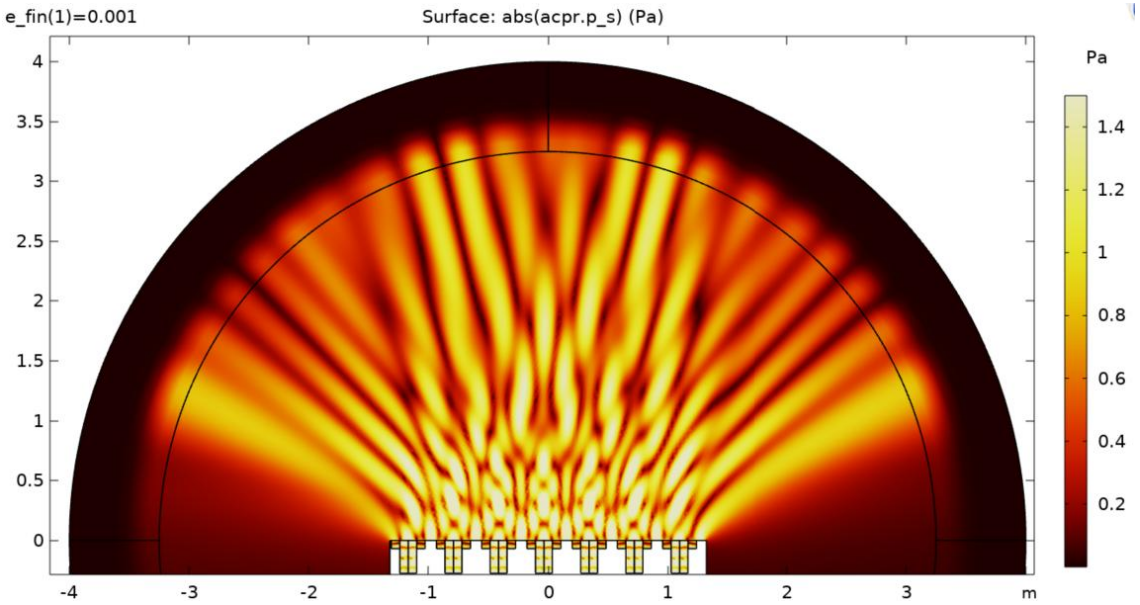
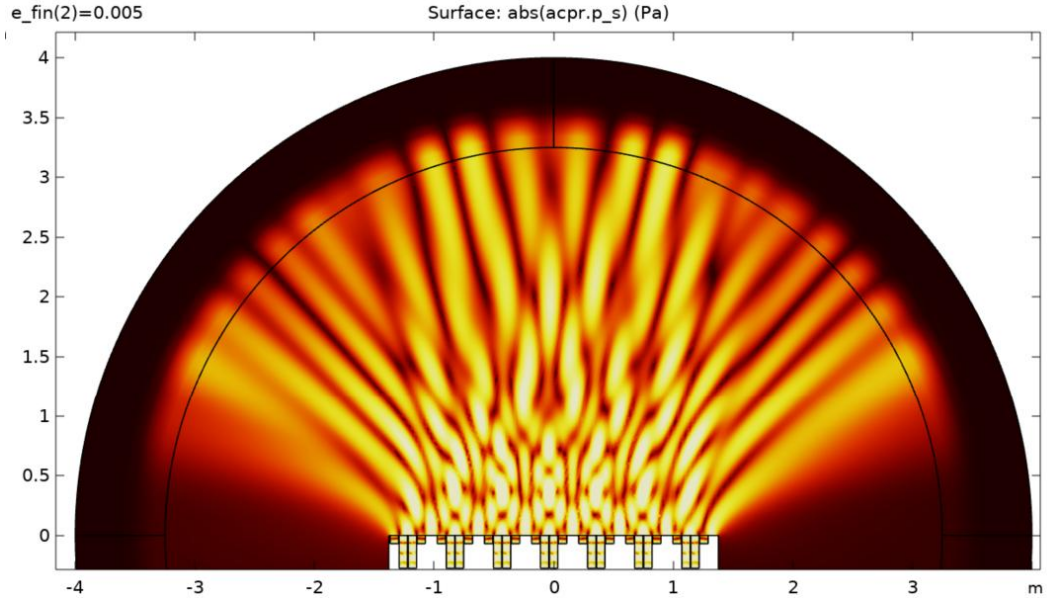
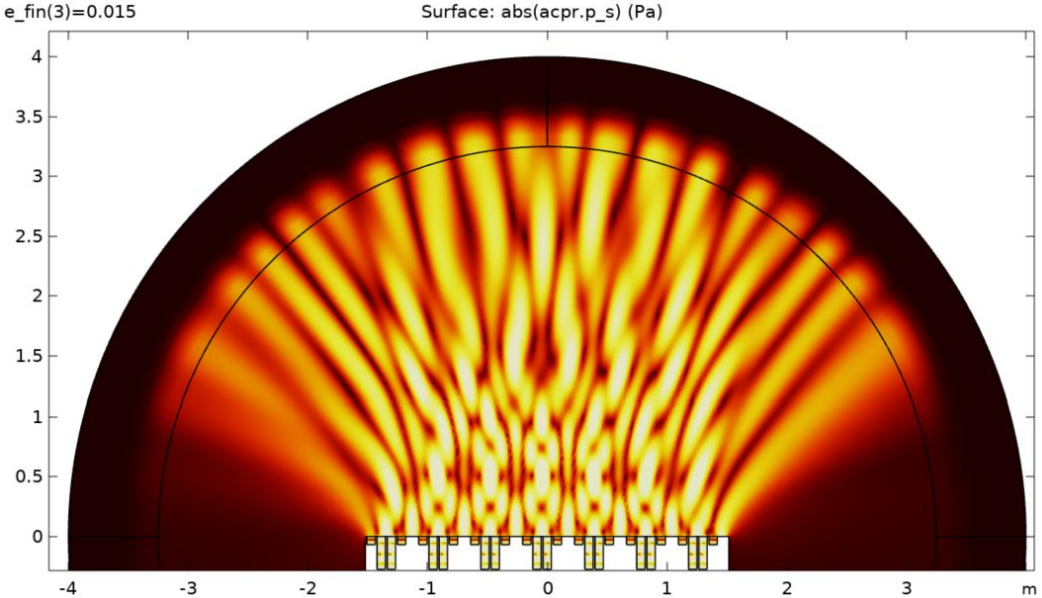
Ps as a function of fin width; $W_{i+4} = 10^{-6}[m], i = 1+5k, k \in \{0,1,2 \dots 7\}$

Jiménez 2017

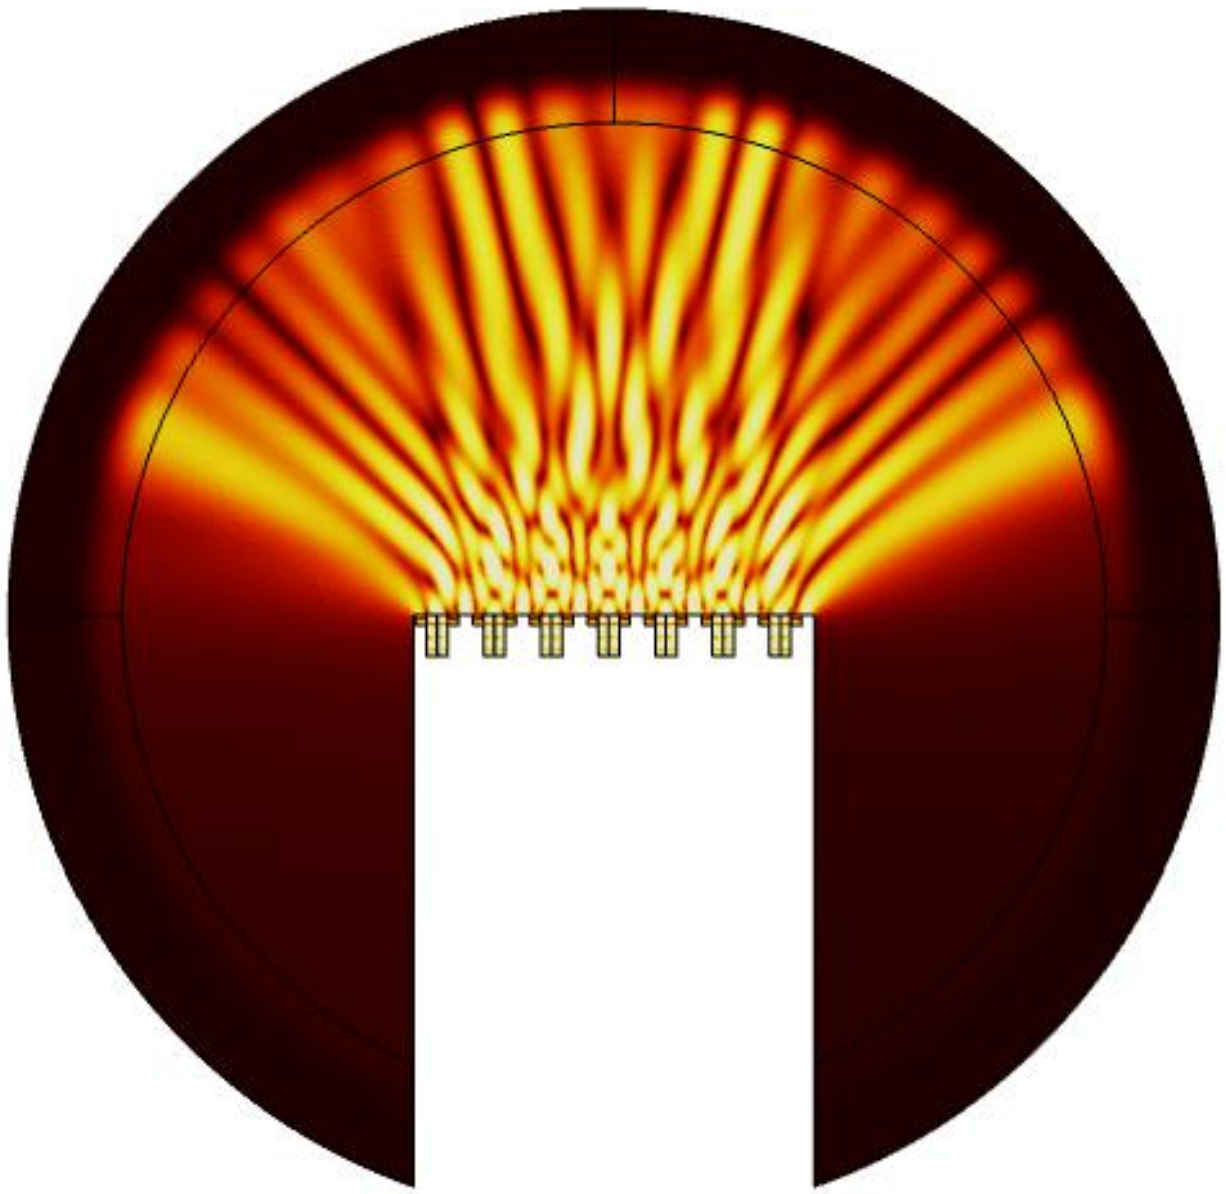






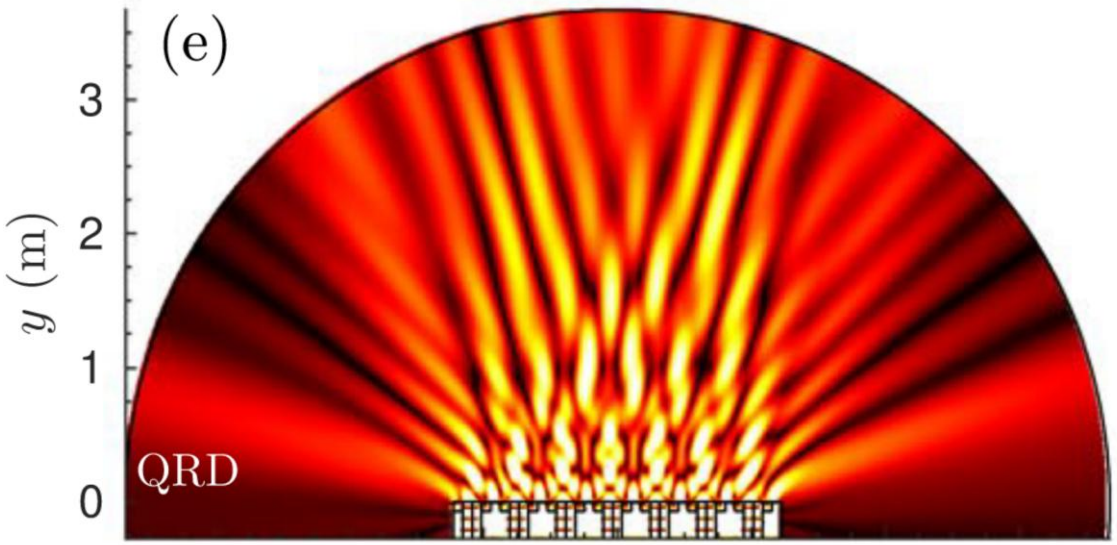


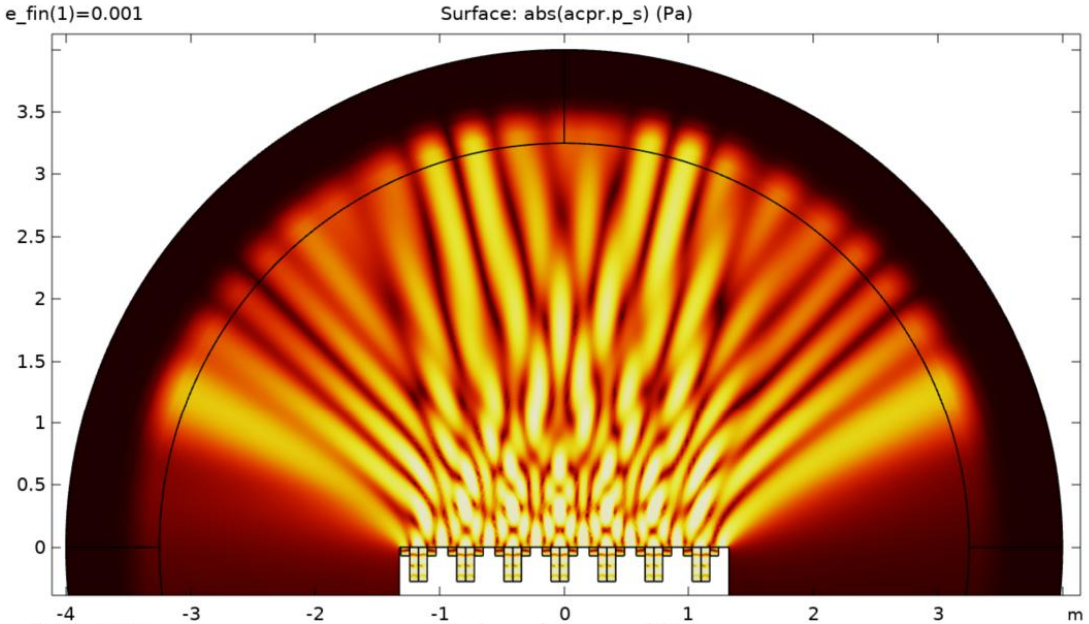
Where W_i is the width of the ith well, and W_{i+4} is the width of every 5th well.

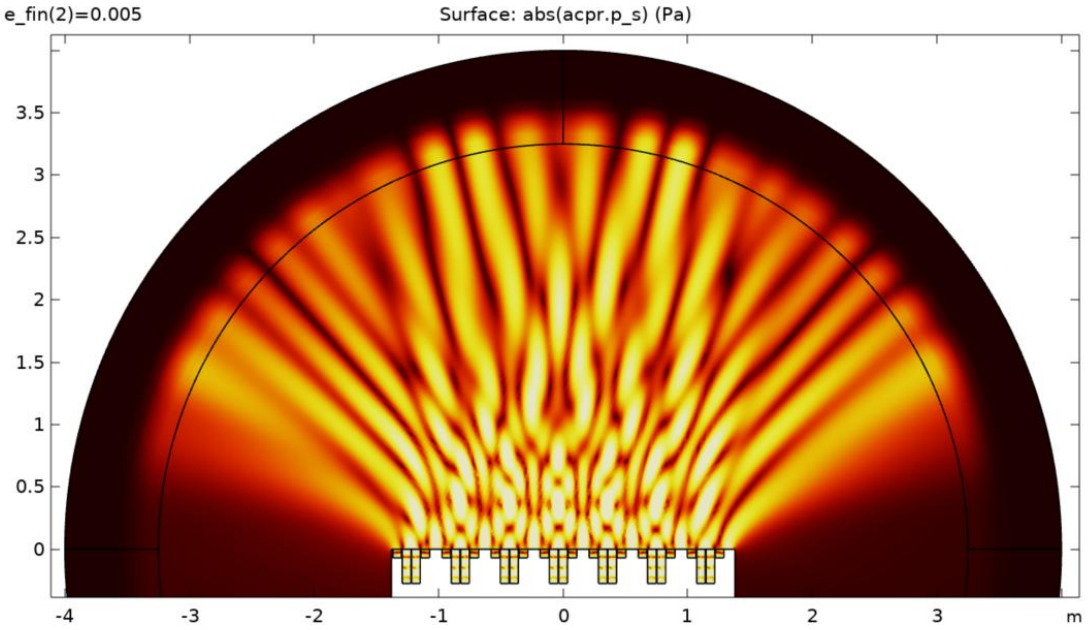


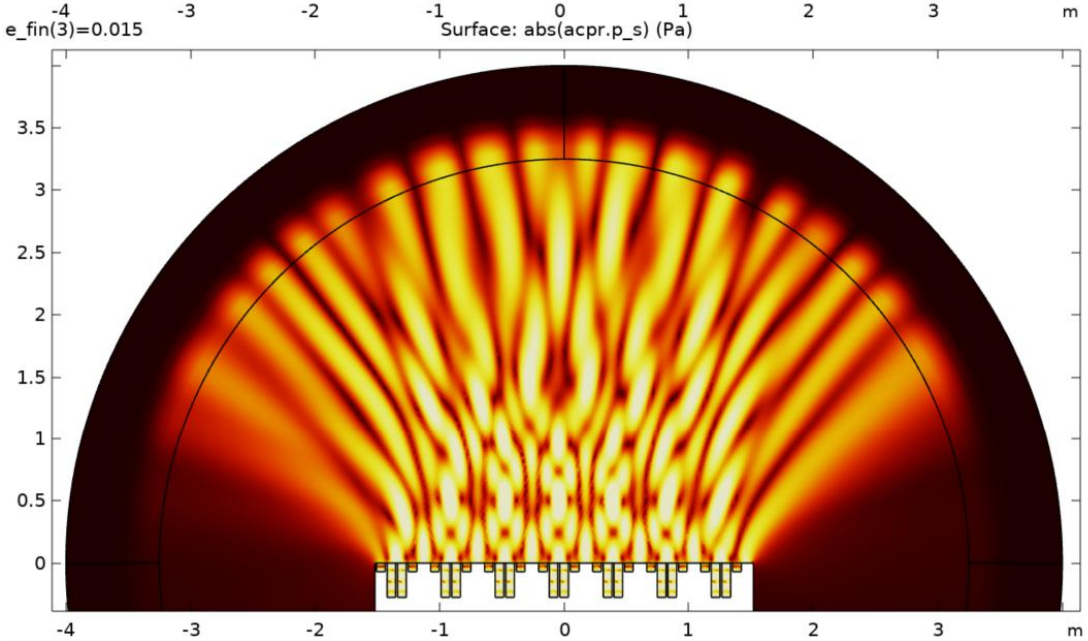
Ps as a function of fin width; $W_{i+4} = 0[m], i = 1+5k, k \in \{0,1,2 \dots 7\}$

Jiménez 2017







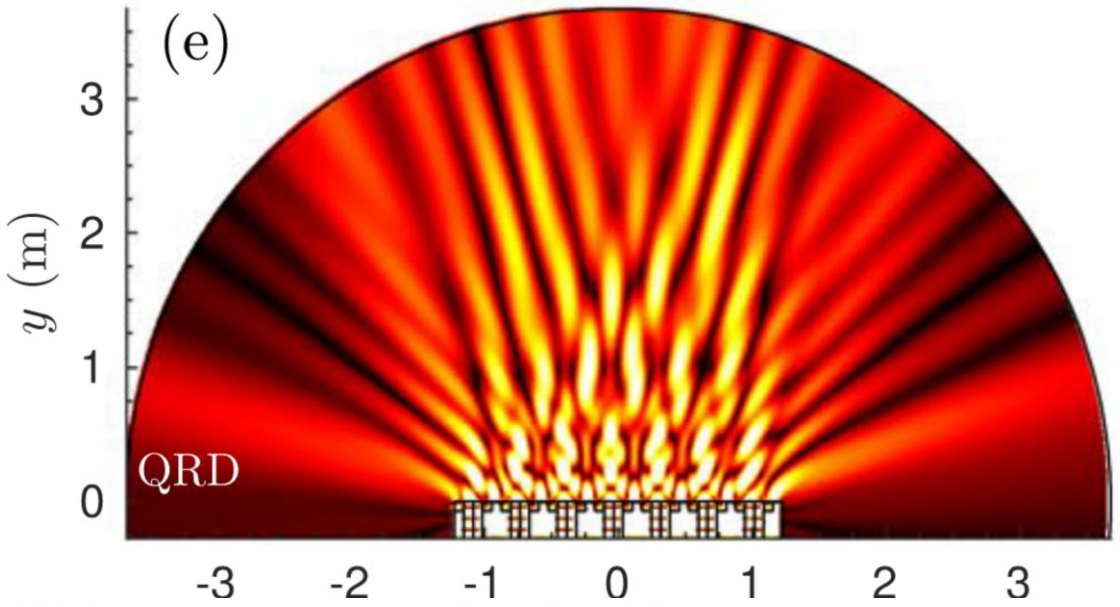


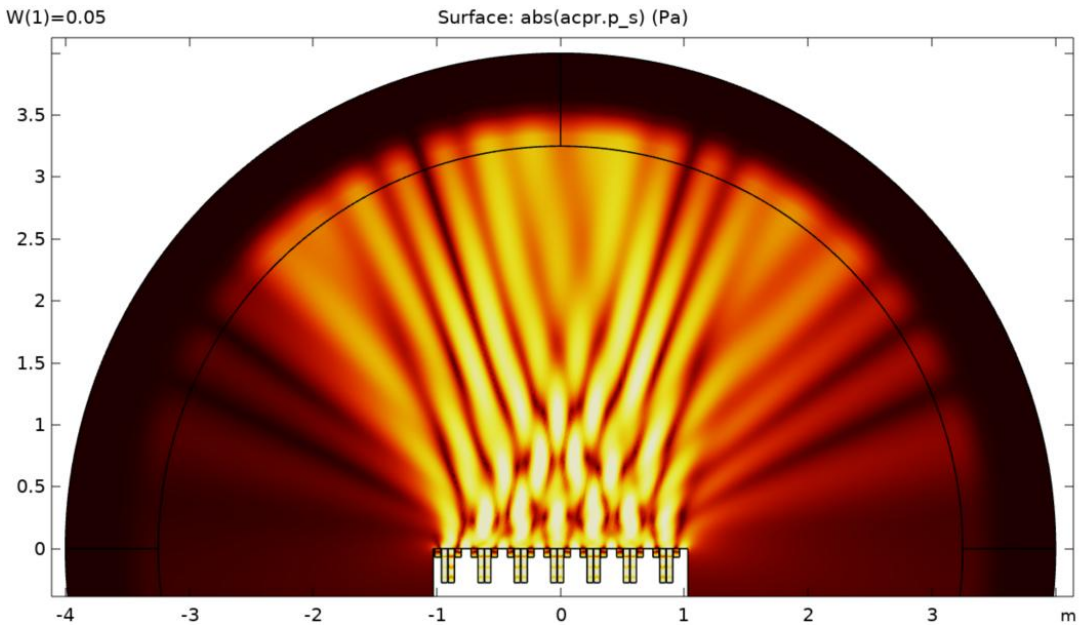
Where W_i is the width of the ith well, and W_{i+4} is the width of every 5th well.

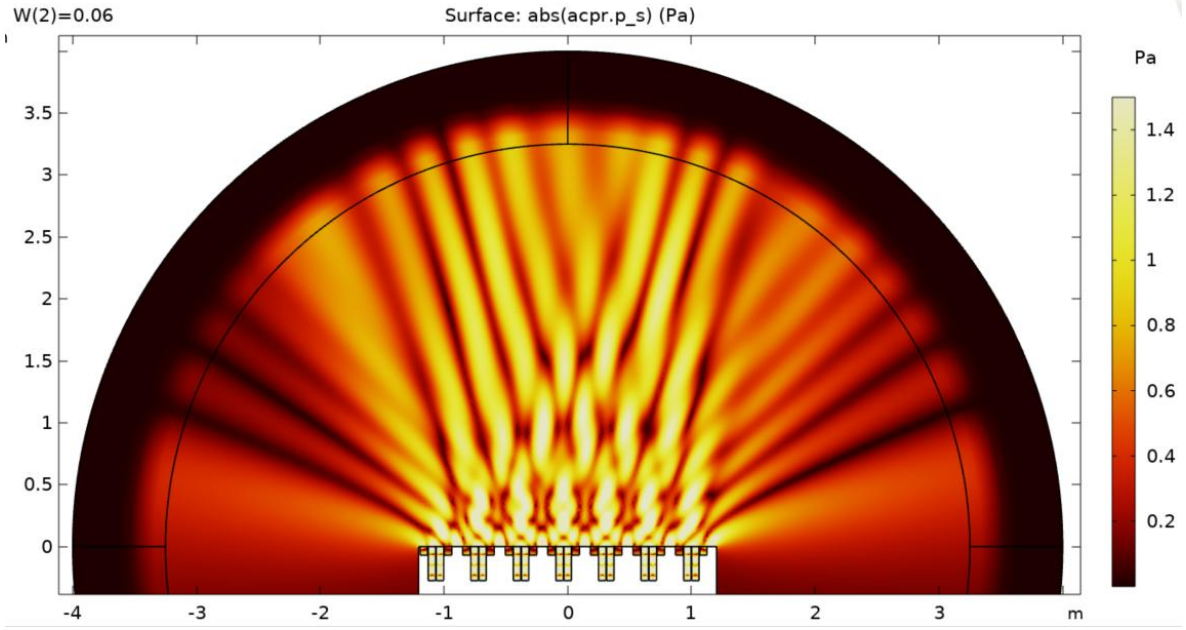
Ps as a function of Well width, W; fin width 5mm

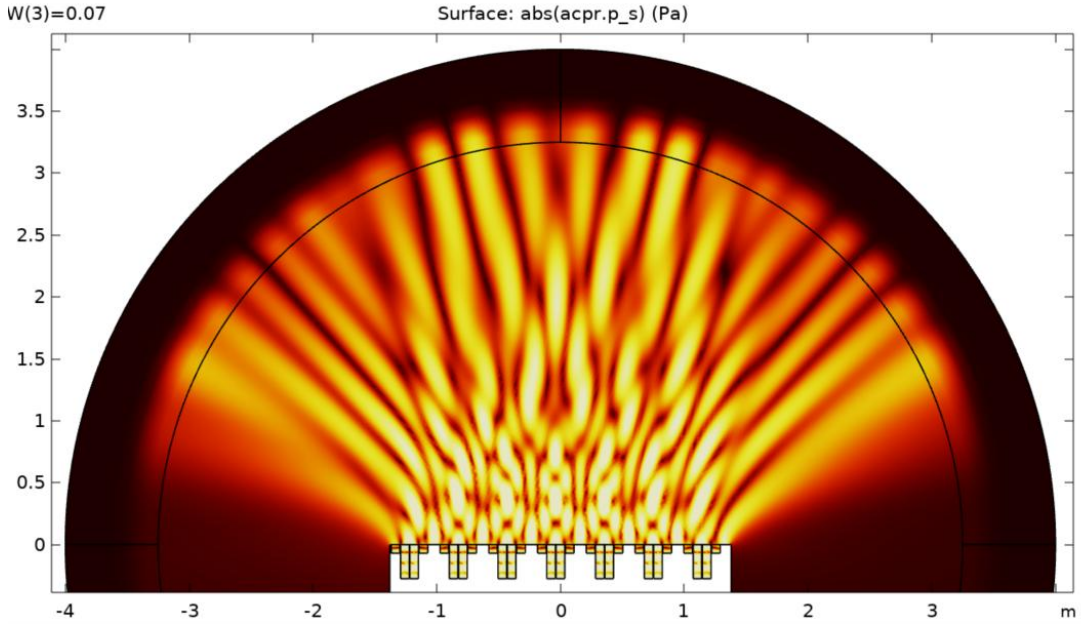
$W_{i+4} = 0[m], i = 1+5k, k \in \{0,1,2 \dots 7\}$

Jiménez 2017



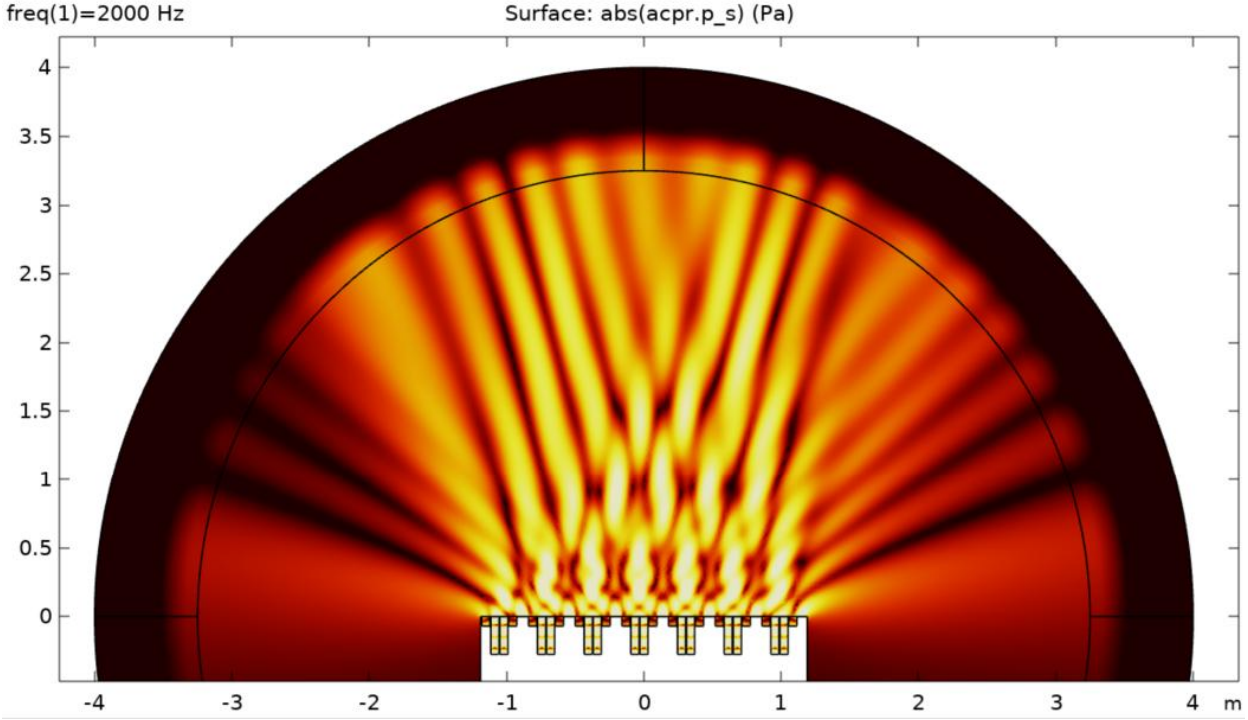




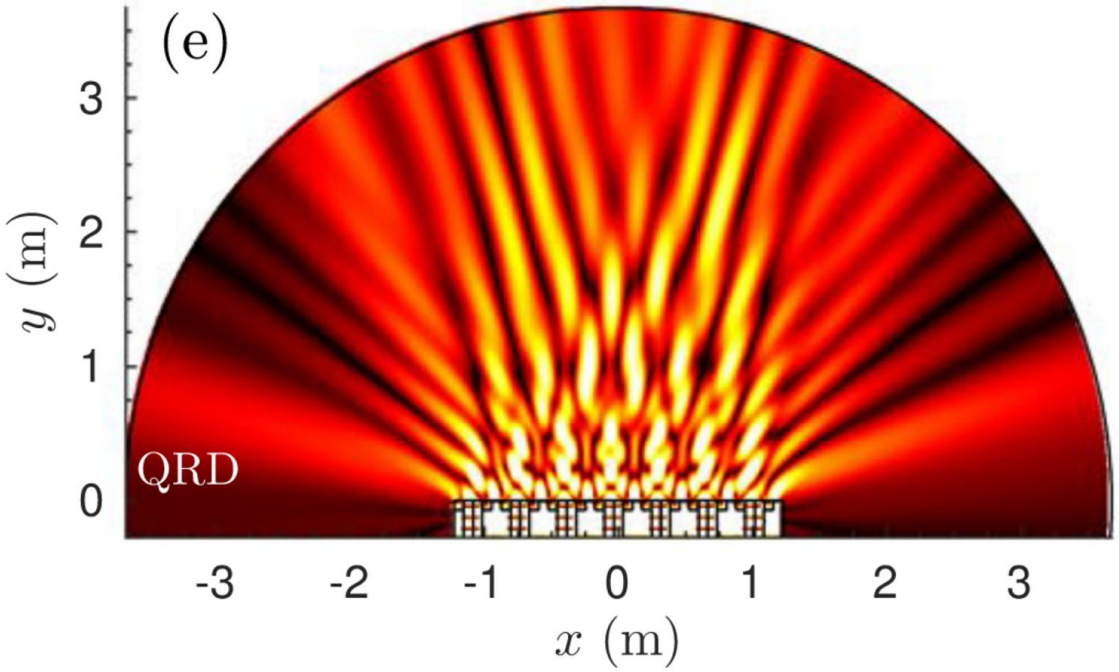


Ps Well width, $W = 6\text{cm}$ e_fin = 5mm, e_stock= 2*e_fin.

Color range: 0.05-1.5 THEME: ThermalDark

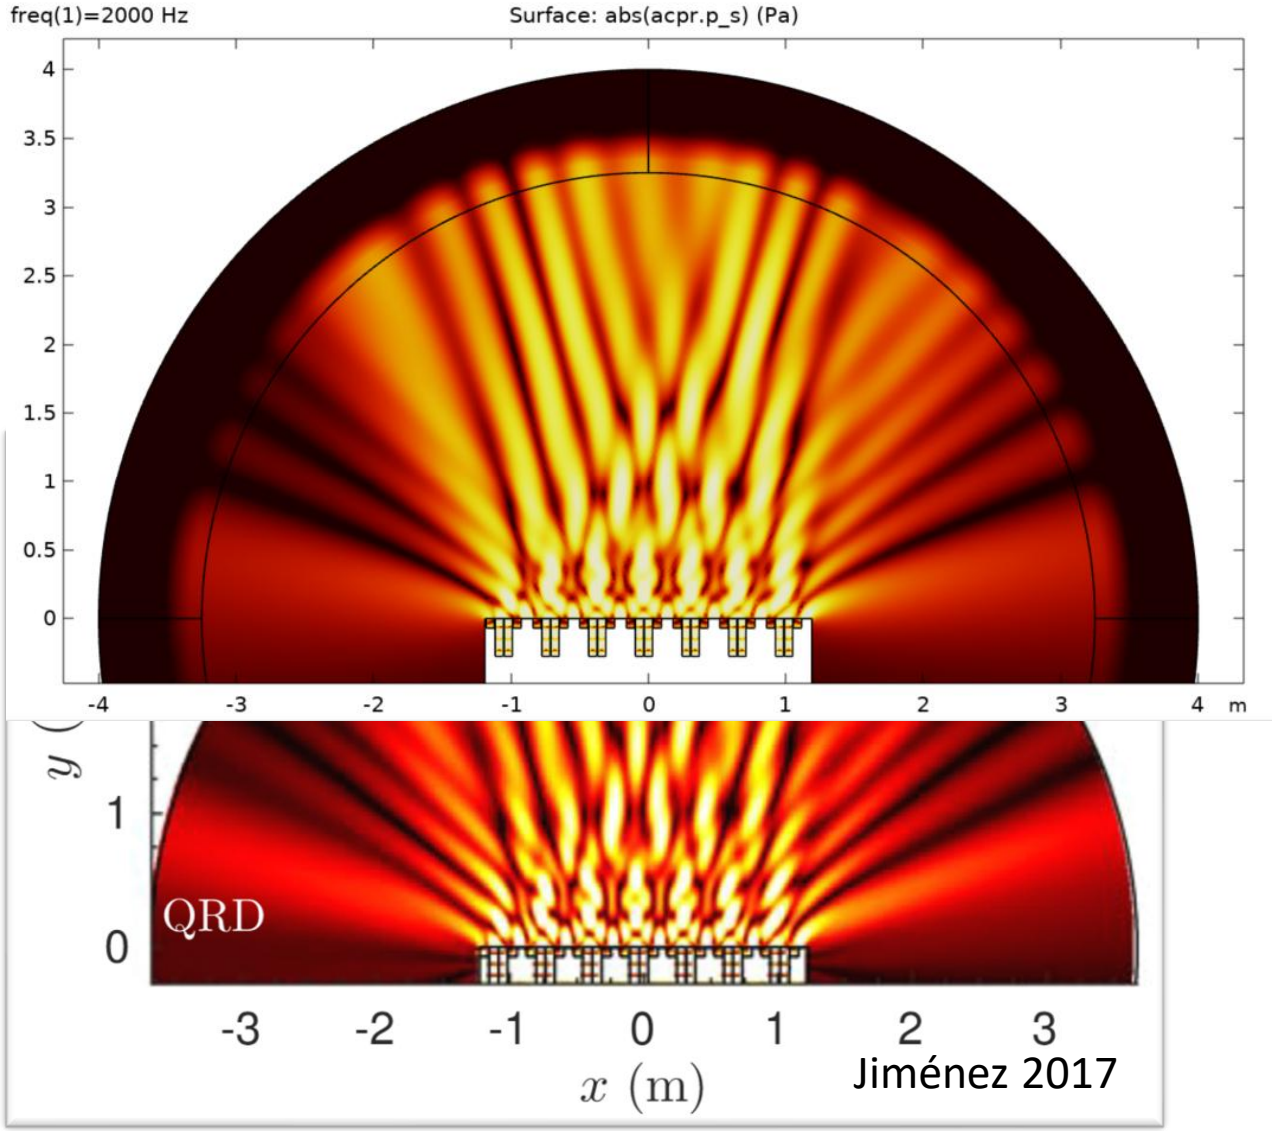


Jiménez 2017



OVERLAY Ps Well width, $W = 6\text{cm}$ e_fin = 5mm, e_stock= 2*e_fin.

Color range: 0.05-1.5 THEME: ThermalDark



Jiménez 2017

OVERLAY Ps Well width, $W = 6\text{cm}$ e_fin = 5mm, e_stock= 2*e_fin.

Color range: 0.01-1.8 – THEME: ThermalClassic
